Building the future...

About SOUTHCREEK

Southcreek Centre, a project of Educational Cooperation Society (ECS) was established in 2001. The Centre is dedicated to the academic, moral and character formation of young boys. The goal of Southcreek is to supplement the training children receive at home and in school, in close co-operation with their parents.

The facility is a 1,200 square meters construction with purpose-designed training facilities with a target to cater for about 300 boys annually. It contains well illuminated, air-conditioned study rooms, classrooms and seminar rooms, a computer lab, sporting facilities, residential staff quarters, and a chapel.

About OPUS DEI

The religious dimension of personal development is also well catered for in Southcreek. In this respect, ECS works in partnership with the Prelature of Opus Dei, an institution of the Catholic Church, which is responsible for providing opportunities of Christian worship and formation in its Centres.

About Activities

G.S.P

The guided study program (GPS) is one of such activities organized by the Centre, weekdays after school, in which secondary school boys come to study in the Centre, with the guidance of tutors the boys acquire good study habits

Boys club

On Saturdays, the junior and senior clubs are organized by the center. Activities which included study as well as extra curricular activities such as football, games, talks on virtues and others are organized also.

VACATION PROGRAM

In addition to the classes and extra- curricular activities, the Vacation Program also helps the boys acquire social skills. The vacation program is a yearly program that is done during the summer.
